MIRIAM GALICIA

Data Analyst | Analytics Engineering | Consumer & Market Analytics

Mexico City, Mexico · +52 55 4851 8953 · migaliciama@gmail.com · linkedin.com/in/migaliciama

SUMMARY

Data Analyst with **3+ years** of experience in global management consulting (Bain & Company) and consumer-panel research (NielsenIQ), turning card-transaction, consumer-panel and e-receipt data into insights for clients across **North America, LATAM, Europe and APAC**. Experienced in building Snowflake and Databricks pipelines, data-quality monitoring and self-service analytics tools, working closely with data engineers, data scientists, consultants and clients. Known for combining technical rigor with business judgment and clear storytelling. Holds an MSc in Economics with advanced training in statistics, predictive modeling and time-series forecasting.

PROFESSIONAL EXPERIENCE

Custom Data Analyst
Aug 2025 – Present

Bain & Company

- Delivered custom analyses (market share, share of wallet, retention, cohorts and competitive benchmarking) for **50+ consulting cases** in consumer goods, retail and travel, with consistently positive feedback from case teams.
- Led multilingual product classification across **4+ countries**, including Germany and France, for one of the team's largest engagements, mapping thousands of transactions to the client's top 50 SKUs to support the final recommendation.
- Developed a self-service Streamlit app on Snowflake (Python, SQL, Altair) unifying 5 panel datasets with reported company financials to compute gross-ups and sales trends, cutting manual research time by **95%**.
- Created a regex-based tool to size sales opportunities across brands and merchants, cutting manual effort by **70%**.
- Build and maintain SQL and PySpark pipelines in Snowflake and Databricks on **multi-million-record** datasets.
- Use Generative AI (Claude, ChatGPT, GitHub Copilot) for AI-assisted coding and QA, cutting turnaround time by **40%+**.

Junior Data Analyst
Aug 2024 – Aug 2025

NielsenIQ

- Co-developed automated KPI anomaly detection with engineering teams in Snowflake, PySpark and Databricks, cutting data-error resolution time from **3 days to 1**.
- Performed root-cause analysis on a historical data-quality issue for a key Mexican retail chain, eliminating duplicate records that had affected **10%** of its sales data since 2020.
- Monitored ETL workflows and data-quality checks for consumer-panel sales data.

Market Researcher
Jan 2021 – Jan 2022

Consejo de la Comunicación

- Built a Power BI dashboard integrating ESG data for **20+ companies** via API to benchmark sustainability criteria.
- Ran a cost-benefit analysis of software and social-media sentiment to support a tool-adoption business case.

EDUCATION

MSc in Economics
Jan 2022 – Jun 2024

Instituto Politécnico Nacional (IPN) – CONAHCYT National Graduate Scholarship

- Research: food-consumption patterns across Mexico's 8 regions and inflation forecasting by income group (ARIMA).

Bachelor of Business Administration
Jul 2017 – Jul 2021

Instituto Politécnico Nacional (IPN)

TECHNICAL SKILLS

Programming & Data: SQL (window functions, CTEs), Python (pandas, NumPy), PySpark, R, Git
Cloud & Platforms: Snowflake, Databricks, Azure
Data Engineering: ETL Pipelines, Data Modeling, Data Quality & Governance, Anomaly Detection, APIs, Automation
Statistics & Modeling: A/B Testing, Hypothesis Testing, Regression (OLS, Panel Data), Econometrics, Forecasting (ARIMA)
BI & Visualization: Power BI, Tableau, Streamlit, Altair, Excel, KPI Design, Data Storytelling
Consumer Analytics: Card-Transaction, Panel & E-Receipt Data, Market Share, Share of Wallet, Cohort Analysis
Generative AI: LLM APIs (OpenAI, Claude), ChatGPT, GitHub Copilot, Prompt Engineering, AI-Assisted Coding

CERTIFICATIONS & LANGUAGES

Certifications: INEGI Economic Information, SEPI ESE Microdata, SciData SQL Database Architecture & R Programming
Languages: Spanish (Native), English (C1, Full Professional Proficiency), French (A1), German (A1)
